DESCRIPTION

RUGGED TABLET PLUS 7000: INTUITIVE AND PROFESSIONAL.

The Rugged Tablet Plus 7000 is built to survive in extreme environments, because it resists falls of up to 1.2 meters in height, has IP65 and works in a temperature range from – 20 ° up to + 60 °. Its characteristics make it suitable for any type of application; in fact, thanks to the numerous optional accessories it can be used as an indoor PC, as an outdoor tablet and as a vehicle terminal. The Windows 10 IoT Enterprice platform is secure, intuitive and easy to use. It has built-in Professional 2D Imager and NFC Reader and a simple and efficient setting dashboard. The Plus 7000 has an excellent readability in outdoor and the battery is removable by the user without reboot. From Retail to Logistics, the Plus 7000 is a revolutionary product that simplifies work and data transmission.
