DESCRIPTION

Rugged Smartphone Plus 6301: Check and Protect

The Rugged Smartphone Plus 6301 offers a high security access to its owner. The access to the powerful features of this smartphone can be done through the specific lateral key which integrates a fingerprint sensor. You need an easier way? Activate the screen and the Face Access function unlocks your phone instantly. Protect your data! Be safe! The SOS feature is able to help you in any kind of difficulty. It will optimize the battery consumption to be able to send a message every 10 minutes with your localisation for a very long time.

THERMAL SENSOR & DOUBLE CAMERAS

Of course rear and front cameras are a standard on the market but look at the advantage of the 2 rear cameras and the high results in the pictures quality. You need to check the temperature of a room, electrical pieces, an animal, a human or whatelse? take the advantage with the Plus 6301 and its FLIR sensor in addition of its 48Mpixels camera.
