DESCRIPTION

Advanced technology and versatility with Zebra ZT420 industrial printer

Zebra ZT420 industrial thermal transfer printer is an industrial-grade printer that offers maximum reliability and accuracy in the printing process.

This machine features a durable metal construction and speed of execution that make it efficient even in the most critical environments. And its strength remains its ease of use and unparalleled connectivity.

These thermal transfer printers meet a wide range of applications across multiple industries thanks to Zebra's Link-OS® operating system and Print DNA's powerful suite of applications, utilities and developer tools.

TECHNICAL SPECIFICATIONS

Print width: up to 168 mm

Maximum printing speed: up to 305 mm / sec

Memory: 256 Mb RAM; 512 Mb Flash

Interfaces: USB 2.0, high speed; Serial RS-232, Ethernet 10/100, Bluetooth2.1, USB Host; Parallel (optional); Wireless: Zebranet®

Printer Server: Supports 802.11 a / b / g / n networks via an internally integrated option that allows the use of Web view and alert features

Print resolution: 203 dpi (8 dots/mm)

ZT420 enclosed

Width: 336.55 mm/13.25"

Height: 324 mm/12.75"

Depth: 495 mm/19.50"

Weight: 18.14 kg/40 lb

Rewinder (optional)

Peeler (optional)

Front guillotine cutter with tray (optional)
