DESCRIPTION

Advanced technology and ease of use with the Plus 100 CCD scanner

The Plus 100 CCD hand-held reader is a high-performance 1D code reader.

It is a barcode scanner that can be used on the move, but it is also designed to remain stationary through the use of a stand. This gives a great versatility for various applications such as sales, logistics, warehousing and many others.

The Plus 100 CCD is equipped with advanced scanning technology. Its speed and remote reading capability make it an excellent product.

Defined by an ergonomic design with USB cable included in the package.
