DESCRIPTION

Stationary omnidirectional scanner with megapixel presentation

The **FR4080 is a fixed omnidirectional reader** for 1D and 2D codes. Convenience and ease of use are key features of this small device.

Thanks to its **megapixel presentation**, the reader is also capable of scanning more complex codes, both on paper and on the screen. This makes the FR4080 Stationary USB Scanner a valuable ally for retail applications, pharmacies and any environment where large quantities of documents/tickets need to be scanned quickly.

The FR4080 features soft illumination with a 10-degree tilt that insures comfort for both employees and customers.
