DESCRIPTION

High-performance 2D and omnidirectional scanner

The **Plus 2021 is an omnidirectional stationary scanner** that features an ergonomic design and multiple scanning capabilities. It is extremely easy to use and can be used manually or traditionally on a bench thanks to the adjustable stand included in the package.

In addition, this device offers **high 2D scanning performance** and allows barcode reading from all positions. These features make it a perfect tool for point-of-sale check-out applications or document management in banks and offices.

The combination of attractive design, ease of use and excellent value for money make the Plus 2021 a competitive device on the market.
