DESCRIPTION

Easy, lightweight, high-performance with Android OS

Equipped with the **latest generation decoder chip**, the Plus 37 mobile computer can quickly scan all **1D and 2D barcodes**. Even the most damaged and lowest quality ones.

The device is designed to be used quickly and easily even for long operations, thanks to its **lightweight, ergonomic design and long-lasting battery life** that allows you to get to the end of a shift without recharging or witching out the device.

Based on the Android 8.1 Go OS, the Plus 37 presents itself as an ideal ally in the entire business process by offering **high performance and high connectivity**.
