DESCRIPTION

The **mobile computer PLUS 50** is our innovative **5G portable terminal**, characterized by a sophisticated **Android 12** operating system and powered by a powerful **Qualcomm Snapdragon™ processor**. With **expandable memory**, this device offers cutting-edge performance to meet the most complex industry needs.

Equipped with an integrated **barcode reader, NFC technology, dual-camera, and wireless connectivity**, the PLUS 50 is designed to maximize operational efficiency. Its **6-inch screen** provides a clear display of information, enabling operators to work quickly and accurately.

The **removable battery** ensures extended autonomy, allowing uninterrupted operations, while the **IP67** resistance protects the device from dust and water, making it ideal for challenging and demanding environments.

The **PLUS 50** is perfectly suited for various sectors, such as **Retail** and **Hospitality**. With its advanced features and **5G connectivity,** it allows for optimizing operations, enhancing goods tracking, and simplifying inventory activities.

With the ability to customize the device according to specific needs, the **PLUS 50** becomes a valuable ally in increasing daily operational efficiency. Supported by **Android 12**, system and application updates occur seamlessly, ensuring greater **security** and **reliability**.

In conclusion, the **PLUS 50** mobile computer is an

TECHNICAL SPECIFICATIONS

Dimensions:
161.0 x 77.8 x 15.5mm / 6.34 x 3.06 x 0.61 inches

Weight:
280g / 9.88oz. (with battery)

Keyboard:
Power button, 2 scan buttons, volume (+/-) buttons

Battery:
Removable main battery with 5000 mAh capacity, supports QC3.0 and RTC

Display:
6-inch high-definition screen (18:9), 1440 x 720 Corning Gorilla Glass Touch Panel, multi-touch panel, supports gloves and wet hands Sensors: G-sensor, proximity sensor, light sensor, geomagnetic sensor, gyroscope

Notifications:
Sound, LED indication, vibration

Audio:
2 microphones, 1 for noise cancellation; 1 speaker; 1 receiver

Slots:
1 SIM card slot, 1 SIM or TF card slot

Interface:
USB Type-C, USB 3.1, OTG

intelligent choice for companies seeking a cutting-edge device with **high-level performance**. With its **flexibility** and **versatility**, it emerges as an ideal solution to enhance productivity and achieve success in **Retail** and **Hospitality**.
