DESCRIPTION

DOUBLE-DISPLAY POS FOR THE RESTAURANT INDUSTRY AND RETAILERS. Retail and restaurant markets have a new partner. The PC POS Plus III White provides excellent performance and reliability for payments applications. It is an all-in-one pos with a tft lcf 15' five-wire resistive, rugged touch display, also usable with a stylus. Rugged and compact, with a modern and ergonomic design, it is suitable for all work environments. Equipped with industrial electronics, it operates without cooling fan and with solid state disks (SSD), to completely eliminate mechanical parts that are subject to wear. A practical 9.7 courtesy monitor comes standard with the system, providing customers with information and advertising. Together with the POS PLUS III PC, please test our E2K food software, perfect for the restaurant industry, or our E2K retail software, perfect for retailers.
