DESCRIPTION

DESIGN AND RUGGEDNESS FOR FAST OPERATIONS. The PC POS PLUS III gray pc is the perfect device to accelerate workflow or manage best-selling items. It is an all-in-one pos with a TFT LCF 15 five-wire resistive, shock-resistant touch display. Rugged and compact, due to its modern and ergonomic design, it is suitable for all work environments. Equipped with industrial electronics, it operates without cooling fan and with solid state HDs (ssd), to completely eliminate mechanical parts that are subject to wear. A practical 9.7 courtesy monitor comes standard with the system. Together with the POS PLUS III PC Gray, please test our E2K food software, perfect for the restaurant industry, or the E2K retail software, ideal for retailers.
