DESCRIPTION

ACCELERATING WORKFLOW. To accelerate your workflow, such as item lists, payments etc., the POS PLUS C is the perfect choice. You can use it anywhere in your company and automatically manage best-selling items. It is an all-in-one pos with a capacitive 15", bright and sharp touch display. Its design and robustness make it suitable for all work environments, also for its water resistant front panel. The PLUS C POS operates without cooling fan. Equipped with an intel celeron J1900 cpu processor and standard pos ready 7.pos plus operating system, it can connect with a practical 9.7" courtesy monitor. Together with the E2K POS PLUS C, please test our E2K food software, ideal for the restaurant industry, or the E2K retail software, ideal for retailers.
