

Mobile Computer PLUS 7 II PRO

PLUS 7 II PRO: Innovative mobile computer with great durability for warehouse use.

Explore the innovative PLUS 7 II PRO portable terminal, a powerful device specifically designed for use in industrial warehouses, logistics, and transportation sectors. Equipped with the Android 11 operating system, it features a removable 5100 mAh battery with fast charging, ensuring continuous operation even during battery replacement. With customizable key options and IP65 certification for protection against external agents, it ensures a seamless experience even in challenging environments. Intuitive and durable, the PLUS 7 II PRO is the ideal solution for optimizing operations in your warehouse.

DESCRIPTION

The **PLUS 7 II PRO** is a mobile computer with the most **advanced technologies** featuring **Android 11**.

High durability and resistance characterize the **PLUS 7 II PRO**, designed to withstand **dusty environments** and **frequent impacts**. Certified with an **IP65** protection rating and drop tests up to 1.8 meters, it ensures prolonged durability in challenging conditions.

Available with **customizable physical keyboards** of **29, 38, and 47 keys** (excluding side keys), it offers maximum flexibility for a wide range of applications. **Backlit keyboards** ensure visibility even in low-light environments.

Equipped with advanced **Duo Near & Far** scanning technology for precise barcode reading from both **close and far distances**, ensuring greater productivity.

The 4-inch **touchscreen display** with **Gorilla Glass 3** offers **clear images** even in **sunlight**, with touch **sensitivity** even **with gloves** and in **wet conditions**.

The hot-swappable **5100 mAh battery** supports **fast charging**, allowing continuous operation even during battery replacement.

Certified Android Enterprise Recommended for optimal performance and security, it provides complete device visibility and control in any location.

TECHNICAL SPECIFICATIONS

Dimensions: 200 (H) x 70 (W) x 29 (D) mm (pistol grip 58 mm).

Weight: 360g (including battery).

Keyboard: Main keyboard (optional): 29, 38, or 47 physical keys; white backlight function.

Battery: 3.8 V, 5100 mAh, removable.

Reading:

15 hours of continuous operation; standby: 500 hours.

Quick Charge (QC) 3.0, USB Type-C port, 9 V / 2 A.

Display: 4.0" WVGA IPS Screen with Gorilla Glass, resolution 480x800, supports touch input with gloves.

Touch Panel: Multi-touch panel, supported for gloves and wet hands.

Sensors: Accelerometer sensor, Hall effect sensor.

Notifications: Vibration, speaker, and multicolor LED.

Expansion Slot: MicroSD card (max 128 GB).

Decoding Capability: All major 2D symbologies, scanning speed 60 frames per second.

Reading Performance: Android 11 operating

system - GMS, Android Enterprise
Recommended (AER), 2 GHz Octa-Core
Processor.

IP Rating: IP65.

Software: MDM (certified) SOTI, Airwatch -
E2K MDM.
