Rugged Mobile Computer Plus 995

Performance, durability, and advanced connectivity.

The **Rugged Mobile Computer Plus 995** is designed for logistics, retail, and industry.
Equipped with an **octa-core 2.0 GHz processor** and **Android 14**, it ensures smooth operation.
Its **1D/2D barcode scanner** (optional DPM) enables fast and precise data capture.
With an **IP65 rating** and **1.2m drop resistance**, it withstands harsh conditions.
The **6200mAh battery** offers over 8 hours of continuous operation.
Advanced **4G, Wi-Fi, Bluetooth 5.0, GPS, and NFC** provide seamless connectivity.

DESCRIPTION

The **Rugged Mobile Computer Plus 995** is a high-performance device engineered for demanding industries such as logistics, retail, warehousing, and manufacturing. Featuring a powerful **octa-core 2.0 GHz processor** and **Android 14**, it ensures a seamless and intuitive user experience, handling complex applications with ease.

Equipped with an advanced **1D/2D barcode scanner** (with optional DPM support), the Plus 955 allows quick and accurate data capture, even from a distance of up to 15 meters. The **4-inch TFT display** ensures readability in all lighting conditions, enhancing operational efficiency.

Designed to endure tough environments, the Plus 955 boasts an **IP65-certified rugged design**, providing dust and water resistance. It also withstands **multiple 1.2-meter drops** on concrete, making it ideal for fieldwork and industrial applications.

With its **6200mAh battery**, the device ensures over **8 hours of continuous operation**, reducing downtime. The **backup battery** enables hot swapping, ensuring uninterrupted performance.

Connectivity is seamless with **4G LTE, Wi-Fi dual-band, Bluetooth 5.0, and GPS**, enabling real-time data transmission and precise location tracking. The device also

TECHNICAL SPECIFICATIONS

- **Octa-core 2.0 GHz processor** for high-speed performance
- **Android 14** for a modern and secure user experience
- **4-inch TFT display** with high readability in all conditions
- **1D/2D barcode scanner** with optional **DPM support**
- **4G LTE, Wi-Fi dual-band, Bluetooth 5.0** for seamless communication
- **Integrated GPS** for accurate location tracking
- **IP65 certification** for dust and water resistance
- **6200mAh high-capacity battery** with fast charging and hot swap support
- **38-key physical keypad** for precise and fast data entry
- **NFC support** for secure authentication and contactless payments

includes an **NFC module** for contactless transactions and authentication.

The **38-key physical keypad** enhances accuracy in fast-paced environments, while the **Type-C port with OTG support** facilitates data transfer and peripheral connectivity.

With **6GB RAM and up to 128GB ROM**, the Plus 955 provides ample storage for business applications. Its durable design and cutting-edge features make it the ideal choice for businesses seeking efficiency, reliability, and top-tier performance.
