DESCRIPTION

The **PC POS Android Plus A100** is the perfect solution for those seeking a **high-performance, modular POS terminal**. With its **11.6″ touchscreen display** and **Android 11 operating system**, it supports all major POS apps and Google Play for complete autonomy.

Its **compact and professional design** makes it ideal for counters and small spaces, while multiple ports and **Wi-Fi, Bluetooth, and Gigabit LAN connectivity** allow easy integration with printers, scanners, cash drawers, and other peripherals.

The Plus A100 can be customized with **optional accessories** such as a customer display, MSR reader, or QR/2D scanner, making it a **flexible terminal adaptable to any operational need**. With **CE, FCC, UKCA, and RoHS certifications**, it is safe and reliable, ready to support every point of sale in daily operations.
