DESCRIPTION

The Plus 1001 Automatic Cash Drawer is designed for those looking for an affordable yet complete solution for payment management. Its innovative side-opening mechanism allows easy integration even in environments with limited space, facilitating partial cash handling while ensuring secure payment management.

The top section of the device features a dedicated compartment to accommodate a telematic printer, while the new **SMART COIN SYSTEM** for coin insertion has been engineered to optimize processing times, making operations faster and more intuitive.

The Plus 1001 supports cash payments, bank card POS transactions, vouchers, deposits, withdrawals (such as payments to suppliers), and even cash exchanges, making it versatile for various needs. It is an automatic cash drawer designed for small businesses that do not want to compromise on security in their daily operations.

With USB connectivity, coin and banknote recycling (up to 1,500 mixed coins and 70 banknotes), and the ability to customize the front panel with your store's logo, the Plus 1001 is ideal for shops with a lower customer flow.
