DESCRIPTION

Apix 301: Versatile and Precise

The Apix 301 is a high-end desktop barcode printer designed to ensure excellent performance and versatility in high-intensity work environments. With a print speed of up to 8 ips and a superior-quality printhead, it delivers fast and accurate results. Equipped with dual transmissive sensors, the Apix 301 ensures precise and efficient printing, while the modular printhead design simplifies maintenance, reducing downtime.

The rugged double-walled structure guarantees durability and long-term reliability, making it ideal for industrial environments. The 3.5" color LCD display with touchscreen functionality makes configuration simple and intuitive. Thanks to 128 MB of DDR2 RAM, 256 MB of Flash memory, and the USB HOST interface, this printer is perfect for stand-alone applications without the need for a PC. Furthermore, it automatically detects resolution between 203 dpi and 300 dpi for optimal setup.

Compatible with a wide range of labels, the Apix 301 adapts to various business needs, offering the ability to easily edit labels using the free BarTender software.

In summary, the Apix 301 is the ideal solution for those seeking a reliable, versatile, and user-friendly barcode printer. With a robust design, high performance, and advanced features, it perfectly fits various business applications, ensuring efficiency and precision. Whether you need to manage high print volumes or customize labels quickly and intuitively, the Apix 301 is ready to meet your every need, making the printing process a smooth and hassle-free experience.
