DESCRIPTION

Ergonomic and Compact Design

The DS 380 RT stands out for its ergonomic and compact design, engineered to provide an optimal user experience and exceptional working comfort.

Distinctive Style

The sleek, squared lines and carefully selected color palette give the register a distinctive look, while the logical layout of text based on functionality ensures intuitive use.

High-Quality Backlit Displays

The durable, backlit displays guarantee high visibility, following ergonomic principles to ensure comfortable use of the register in any lighting condition.

Intelligent Function Selection

The register intelligently and automatically selects functions based on the device's status, simplifying interaction and boosting operational efficiency.

Easy Maintenance and Cleaning

Equipped with a practical screwless "dual block" drawer fastening system, the DS 380 RT makes cleaning and maintaining the screen and drawer effortless, ensuring consistently efficient performance.

Extensive Connectivity

With its wide range of connectivity options for the most common peripherals, the DS 380 RT integrates perfectly into your workspace, offering a complete and versatile solution for all transaction and recording needs.
