DESCRIPTION

Compact Solution for Limited Spaces: Optimized Case Design

The IT-ONE Fiscal/Telematic Printer is a compact telematic cash register designed in compliance with Legislative Decree 05/08/2015 n.127, meeting the latest requirements for the electronic transmission of daily receipts.

Featuring a technologically advanced design, it is housed in a compact case specifically engineered for space-constrained environments. The product stands out for its flexibility and adaptability to various sales settings: the IT-ONE can be positioned VERTICALLY on a checkout counter, HORIZONTALLY, or even WALL-MOUNTED using a practical and easy-to-install fixing kit (optional).

Elegance and Functionality

The sleek gloss-black design is both elegant and minimalist, combining superior ergonomics with high functionality. Furthermore, the IT-ONE Fiscal/Telematic Register offers all the best features of a traditional cash register:

- Front-facing USB port
- “Low paper” and “paper out” sensors
- Maximum connectivity for all peripherals

Versatile Printing

In addition to these features, the printer includes an “easy-loading” mechanism and 80mm print head versions, allowing for high-speed, high-resolution printing of Barcodes, QR codes, and graphics on non-fiscal documents.

Equipped with USB, micro USB, serial, Ethernet, and optional Wi-Fi ports, the device can connect to a wide range of peripherals—from PCs, tablets, and smartphones
