DESCRIPTION

SECURITY, HOSPITALITY AND RETAIL: A SOLUTION FOR MANY NEEDS.

The **Auto-ID Plus 10 reader**, in conjunction with the **Plus 20000 smartphone portable terminal**, incorporates multiple readers (OCR, MSR, NFC, IC Card, 1d/2d barcodes and fingerprints) in one device. **Designed to read ID documents of most countries in the world**, as well as fidelity cards and **fingerprints**. Perfect for high crowded places, such as **airports**, **bus** and **train stations**, large department stores, theme parks and **Police headquarters**. Small and practical, it connects/disconnects with the Plus 20000 in a snap. With an **IP54** protection grade, it withstands drops up to 5′ (1.5 m), always providing **excellent perfomance**. Possibility of storing and reusing data downloaded from documents via an integrated application program.
