change system.**

# PLUS 1000

The POS automated cash payment/  
change system.

The Plus 1000 POS automated cash payment system is an innovative device, designed for **cash payment acceptance and automated change dispensing**. It can be connected to **E2K Suite or any management system** and, thanks to its **compact and elegant design**, it can be easily adapted to any furnishing style. **The Plus 1000 accepts any bill and coin denominations**, counts them and accurately dispenses change to end users. **This device guarantees exceptional hygiene standards for food & beverage retailers, because users never have direct contact with money**. Furthermore, high security is guaranteed: **the Plus 1000 POS automated cash payment system features an armored shell and double-mapping lock** that can only be opened with a password.

## 1.

### Up to 3500 coins

Plus 1000 accepts up to **3500 coins of any denomination**. The acceptance system is quick and practical, and allows you to insert coins inside a container. The machine then counts them (**10 coins/sec**) and inserts them into the payer, reloading it at each insertion. These coins are then reused for change dispensing.

## 2.

### Banknotes: 200 in recycle (2 denominations) and 400 in the stacker

Plus 1000 accepts all bill denominations and inserts two denominations, selected for change dispensing, in the recycle drawer.

## 3.

### Practical front display

The practical customer-facing **7" front display** makes payment transactions simple and intuitive.

4.

## Strength and Security

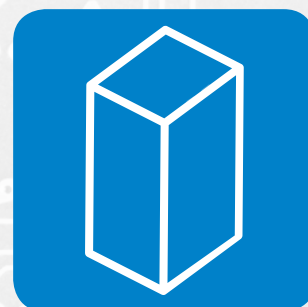

The Plus 1000 POS automated cash payment system has a **0.01" (2.5 mm) thick armored** shell and a double-mapping lock with electronic release. In fact, the machine opening takes place only after **user's password recognition**.

5.

## Compact and rugged design

ts design makes it easily adaptable to any business.

**Dimensions: 13"x13.2"x23.2" (33x33.5x59 cm)**  
**Weight: 77.1 lbs (35 kg)**

6.

## Customizable front-side

Available in different colors and customizable on the front side.

## 7.

### Taxation management

The Plus 1000 POS automated cash payment system can be connected to E2K Suite, a POS pc and, a fiscal printer or any management system, to automate payments and change.

## 8.

### Hygiene and security

Thanks to the Plus 1000, the end-user never has direct contact with money, which is crucial for food & beverage retailers. Also, money management mistakes and waste of time are avoided.

## 9.

### Remotely controlled

Plus 1000 is online connectable via ADSL, to be remotely controlled and providing retailer's timely data even during store absence.

## Hygiene and fast payments in Bakeries, Pizzerias, Pastry shops, Fast foods, Bars, Restaurants.

The Plus 1000 POS automated cash payment system can be used in high-crowded/fast paced environment operations where you need **accurate and fast payment transactions**.
