

# USB Handheld Scanner PLUS 100 CCD

cod. LTMNNL020

## HIGH SPEED AND REMOTE READING CAPABILITY

The Plus 100 CCD hand-held reader scans 1D codes and supports the USB interface. It is lightweight and it offers excellent code reading performance at an affordable price, this scanner is the ideal solution for dynamic jobs such as sales and other activities that require a low outlay.

## High durability and ease of use

This high-performance, ergonomically designed CCD scanner can be used for various applications such as sales, logistics, office automation and many others. With a scanning speed of 300 scans per second and the ability to read barcodes at a distance of more than 30 cm, the Plus 100 CCD is an excellent alternative to laser scanners.

## Advanced technology

The technology includes an optical system, decoder and image processing system. Despite its low price, this reader allows users to create their own applications with development tools, to identify particular images and symbols. USB cable is included in the package.

## TECHNICAL SPECIFICATIONS

**Image sensor:** linear

**Barcodes:** 1D: Code 128, EAN-13, EAN-8, Code 39, UPC-A, UPC-E, Codabar, Interleaved 2 of 5, ISBN, Code 93, UCC / EAN-128, Databar GS1, etc.

**Interfaces:** RS-232, USB, PS / 2

**Light source:** visible red LED at 620nm

**Illumination:** 0 ~ 80,000 LUX

**Weight:** 105g

**Operating temperature:** 0 to 50°C

**Drop:** 1.5m drop on concrete
